PROJECTS

2018 — **TodayStudy**
This is a website project. It helps people know the top ten universities in Bangladesh and helps students figure out which university is best for them. Simply enter SSC and HSC GPA by giving.

2019 — **Shopping**
Shopping.com was an e-commerce base project which I made in a University lab course, and the teacher was very happy to see the project.

2019 — **Dhaka International School & College**
This is another website I made for my friend. This is the school website. Everything in the school can be controlled through this website.

2018-2021 — **I have done 20+ website projects**
I have done many website projects that's have been uploaded to my Github- https://github.com/hasan972 using react, Html5, css4, JavaScript, bootstrap.
